

Town of Berlin Community Development Planning Survey

Dear resident, this survey is the first step in a master planning process that the Town is undertaking starting in 2011. It will help determine strategies for protecting and managing open space, fostering appropriate residential and commercial development, and providing quality facilities and services for Berlin. In addition, a State-approved Open Space and Recreation Plan is a prerequisite for participation in the grant programs offered by the Massachusetts Division of Conservation Services. Our Town will continue to be eligible for this important funding with the completion of the Open Space Plan. One example of our past use of these programs is the \$225,000 grant we received in 2007 for the acquisition of the 13-acre Berlin Meadows property at the corner of Route 62 and Pleasant Street.

Your opinions are important. Replies during March 2011 can still be tallied. All replies will be kept strictly confidential and will be reported in statistical summaries only. Please take a few minutes to respond on line at <https://www.surveymonkey.com/s/68SRRR6> .
